

# ALLIED NURSERY AND GARDEN CENTER

## 2015 4-STEP PROGRAM FOR EXISTING TURF GRASS

### STEP 1\_\_18-0-5 w/ .29 Podamine Crabgrass preventer

Provides pre-emergent crabgrass control as well as prohibiting some broadleaf weeds from germinating.

April 1 through May 10  
Covers: 12,500 s.f. (3.5 bags / per acre)  
\$27.00 / per 50# bag

### STEP 2\_\_19-0-2 Trimec Weed and Feed\_\_\_\_\_

A post-emergent weed control, that is effective on broadleaf weeds such as dandelions and white clover Dampen lawn before applying for best results. Do not apply if rain is in the forecast within 48 hours.

Apply: May 10- June 10  
Covers: 12,500 s.f.  
\$35.00 / per 50# bag

### STEP 3\_\_\_\_18-2-2 50% organic fertilizer w/ Iron\_\_\_\_\_

Keeps your lawn fed and healthy. The iron helps to prevent the lawn combat rust in the hot dry, summer months, as well as naturally green up the grass

Apply: July 16 – August 15  
Covers: 12,000 s.f.  
\$22.50/ per 50# bag

### STEP 4\_\_\_\_\_ 28-0-4 100% Ultra\_\_\_\_\_

Final feeding of the year, formulated to strengthen the grass plant by building up nutrients for the long winter months

Apply October 1 – November 1  
Covers: 15,000 s.f.  
\$25.50/ per 50# bag

(this step by special order only – please call in August to reserve bag)
